**OPAC-INAF**

OATs Library

... a brief presentation:

OPAC = Online Public Access Catalogue

**This is the general catalogue of INAF libraries' collections.**

**Access to OPAC is possible from all computer terminals** linked to the network from every corner of the world, without the need to be present in the library or to connect to Internet from a computer with authorized IP address.

OPAC offers **several functions and search modalities** which enable quick and efficient search for bibliographic material

**INAF Libraries OPAC**  
The new OPAC is available and it collects bibliographic descriptions of **books and journals** of the INAF Libraries. You can search the entire database or select the library you want using the prepared dropdown menus. For more information or details do not hesitate to contact the [librarians](#).

**OATs Library catalogue**  
It is still active the old version of the catalog but it is only updated until 2011. It contains the bibliographic descriptions of **books and journals** owned by the OATs library.

**INAF Digital Library**  
It is the catalogue of the **electronic journals** of all INAF libraries. Searches are performed in the [Italian Catalogue of Serials \(ACNP\)](#), for each title the link to the journal homepage is given, and other useful information such as the licensed material or the free access where possible.

**Catalogue of journals owned by the Astronomical Observatories and Astronomical Departments of Universities in Italy**  
It is the catalogue of **printed and electronic journals** owned by the libraries of the Astronomical Observatories and Astronomical Departments of Universities in Italy. Searches are performed in a section of [Italian Catalogue of Serials \(ACNP\)](#) dedicated to the above mentioned Institutes.

**Catalogue of the OATs journals**  
This catalogue includes the bibliographic descriptions of **printed and electronic journals**, (current, ceased or suspended subscriptions) owned by the OATs Library. Search is performed in the [Italian Catalogue of Serials \(ACNP\)](#) from which the data regarding our Library has been extracted.

# OPAC-INAF

OATs Library

...a list appears of **new acquisitions available** in the library, for example **in OATs library**

The screenshot displays the INAF OATs Library OPAC interface. At the top, the INAF logo and name are visible. Below the header, a navigation bar contains links: [NOVITÀ](#), [RICERCHE DI BASE](#), [INDICI](#), [RICERCHE SPECIALI](#), [AREA UTENTI](#), [BIBLIOTECHE](#), [LOGIN](#), and [GUIDA](#).

On the left side, there is a sidebar with search options: [Ricerca semplice](#), [Ricerca di base](#), [Ricerca per liste](#), and [Ricerca avanzata](#).

The main content area is titled "Novità" (New Arrivals). It shows a list of 18 items found. The first item is "Astronomical spectrography for amateurs : CNRS school in astronomy for professionals and amateurs, Oléron, France, 6-11 May, 2003 edited by J.-P. Rozelot and C. Neiner. - les Ulis, France : EDP Sciences, 2011. - IV, 214 p. : ill. ; 24 cm". The second item is "Chemical evolution of galaxies / Francesca Matteucci. - Heidelberg [etc.] : Springer, 2012. - xiii, 225 p. : ill. ; 24 cm". The third item is "Codice dei contratti pubblici commentato con la giurisprudenza : annotato con il Regolamento e la prassi / Ornella Cutajar, Alessandro Massari. - 2. ed. - Santarcangelo di Romagna : Maggioli, 2012. - 1596 p. ; 24 cm.". The fourth item is "Comparative magnetic minima: characterizing quiet times in the sun and stars : proceedings of the 286. symposium of the International Astronomical Union held in the city of Mendoza, Argentina, October 3-7, 2011 / edited by Cristina H. Mandrini, David F. Webb. - Cambridge (UK) [etc.] : Cambridge University Press, 2012. - xvii, 460 p. : ill. ; 26 cm".

Each item has a book icon, a status indicator (e.g., "Disponibili: 1"), and an "Includi" button. A red text overlay on the right side of the list reads: "To view the complete bibliographic description click on the title".
